Janitized® is a registered trademark of APC Filtration Inc.

**Blue Ribbon Warranty**  
 In the event that an OEM manufacturer does not honor its warranty when using *Janitized*® brand replacement bags, APC provides a product warranty that meets the OEM warranty.  
 Visit [www.Janitized.com](http://www.Janitized.com) for warranty details.

**Gold Seal Warranty**  
 In the event that we are unable to ship your order complete by the requested ship date, *Janitized*® will add one free case of the back order. APC reserves the right to ship from more than one warehouse to complete your order.  
 Visit [www.janitized.com](http://www.janitized.com) for warranty details.

**ABOUT US**

*Janitized*® vacuum bags and filters are the industry's first and most comprehensive line of "commercial grade" aftermarket filters designed for commercial cleaning professionals. Manufactured by APC Filtration Inc., an ISO 9001:2015 quality managed company providing over 35 years of air filter design, engineering, manufacturing and appliance testing to global equipment and appliance manufacturers, *Janitized*® vacuum bags and filters incorporate filter materials that meet or exceed OEM filter specifications and performance. These products are exceptionally tough and durable; built to handle demanding cleaning applications while improving indoor air quality (IAQ) and worker safety by capturing 99% of sub micron dust particles and allergens. *Janitized*® vacuum bags & filters meet and/or exceed OEM product specifications providing up to 40% more vacuum cleaner suction, up to 55% more dust loading area and up to 46% more wet/dry tear strength vs genuine OEM filter bags.

- Up to 99% micro-filtration at 0.3 micron\*\*
- Up to 40% increased airflow
- Up to 55% increased filter area
- Up to 46% stronger than Genuine OEM bags

\*\* Results of Fractional Efficiency Testing conducted by an independent laboratory @ 0.3 micron @ 26.5 fpm.

When you purchase *Janitized*® products you get premium quality filtration and peace of mind.  
 For complete distribution terms, please call 1-888-689-1235 or email us at [customerservice@apcfilters.com](mailto:customerservice@apcfilters.com)

**IS THERE SOMETHING YOU'D LIKE TO SEE HERE? LET US KNOW! WE'RE ALWAYS ADDING NEW ITEMS AND VALUE YOUR INPUT.**

The industry's first compostable vacuum cleaner filter bag to be approved and validated by Underwriters Laboratories (UL) and to earn the Certified Biobased Product Certification and Label from the United States Department of Agriculture (USDA).

All products and packaging materials are made from 100% renewable resources designed to be recycled and/or biodegrade when aerobically composted reducing the amount of valuable resources entering our landfills to meet Federal Trade Commission (FTC) Green Guidelines.

Janitized® is committed to making a difference towards improving our global environment.

COMMERCIAL COMPOSTING FACILITIES MAY NOT BE AVAILABLE IN YOUR AREA. COMPONENTS OF USED BAGS MAY NOT BE COMPOSTABLE IN YOUR AREA. CHECK FOR AVAILABILITY IN YOUR AREA AND WITH YOUR LOCAL COMPOSTER FOR SPECIFIC REQUIREMENTS.

COMPOSTABLE VACUUM BAGS

COMPOSTABLE VACUUM BAGS

Janitized® aftermarket panel & industrial filters offer two filter media options to cover most applications and operating conditions:

1. Cellulose filters for dry cleaning applications
2. Washable Spunbond filters for wet or dry applications

The Janitized® filter frame construction is made up of a four (4) piece rigid 24 gauge electro-galvanized steel frame, designed to prevent flexing and premature corrosion. Additional stiffeners are added to handle the sweeper's automatic vibration cleaning systems. Janitized® panel filters provide increased filtration & longer filter life, reducing equipment downtime, filter waste disposal and maintenance costs.

**RESTORATION FILTRATION**

Natural disasters and man-made failures or defects cause damage to buildings and its contents disrupting people's lives, businesses and the communities they are in. The disaster restoration industry uses a variety of specialized equipment to remedy the damage caused by water, fire and mold growth.

**The equipment is only as good as the filters used.**

Janitized® aftermarket filters offer a variety of filter designs to maximize the efficiency of the specialized restoration equipment. From Carbon to HEPA filtration rated at 99.97% at 0.3µm; Janitized® filters help improve indoor air quality during the remediation and after by capturing airborne contaminants and returning the air to a level of cleanliness equal to or better than pre-loss conditions.
