NaDCC - Each rapidly dissolving 48.21% sodium dichloro-s-triazinetrione tablet is the equivalent of 29% available chlorine, a broad spectrum and sporicidal disinfectant. 1 tub of 950 tablets will produce 190 gallons of liquid bleach.

ADVANTAGES

- No harsh fumes for the end user
- Less corrosive to surfaces compared to liquid bleach
- Neutral and consistent pH levels
- Made in the USA and EPA registered
- Tablets have a 3 year shelf life
- Flexibility – Easily control the level of dilution to match your specific disinfectant requirements.
- Safe & convenient – No handling or measuring concentrated hazardous liquids

RESULTS

- Kills C. difficile spores in 10 minutes
- 99.9% effective against respiratory syncytial viruses and influenza H1N1 (colds and flu)
- Better than liquid bleach:
 - more sustainable
 - easier to handle and store
 - stable formulation
- Use as a sanitizer, broad-spectrum disinfectant and/or sporicide
