ABOUT US

Janitized® vacuum bags and filters are the industry’s first and most comprehensive line of commercial grade aftermarket filters designed for commercial cleaning professionals. Manufactured by APC Filtration Inc., an ISO 9001:2015 quality managed company providing over 25 years of air filter design, engineering, manufacturing and appliance testing to global equipment and appliance manufacturers.

Janitized® vacuum bags and filters incorporate filter materials that meet or exceed OEM filter specifications and performance. These products are exceptionally tough and durable; built to handle demanding cleaning applications while improving indoor air quality (IAQ) and worker safety by capturing 99% of sub micron dust particles and allergens. Janitized® vacuum bags & filters meet and/or exceed OEM product specifications providing up to 40% more vacuum cleaner suction, up to 55% more dust loading area and up to 46% more wet/dry tear strength vs genuine OEM filter bags.

Natural disasters and man-made failures or defects cause damage to buildings and its contents disrupting people's lives, businesses and the communities they are in. The disaster restoration industry uses a variety of specialized equipment to remedy the damage caused by water, fire and mold growth.

The right restoration filters and equipment are essential for disaster recovery and minimizing damage caused by natural disasters like hurricanes. Part of your preparation for protecting your home and loved ones should include investing in high-quality restoration filters.

Another options for protecting your home post-hurricane can include purchasing aftermarket vacuum bags and air filters. These can assist you in clearing up the mold and other bacteria that are harboring within the home on furniture and within carpets.
